

Summer Student Employment

Job Title: Summer Student - Hydroelectric Power Generation (one position)

Company: Mississippi River Power Corporation

Location: 12B Mill Street, Almonte, ON

Job Type: Summer Student (30-35 hours per week for 14-16 weeks)

Pay Rate: \$20 per hour

We are hydroelectric power generation company looking for a highly motivated and enthusiastic summer student to join our team for 14 - 16 weeks, starting in mid-May. The successful candidate will have the opportunity to gain hands-on experience in the administration, operation and maintenance of a hydroelectric power generation station and adjacent park.

Potential Areas of Responsibility:

- General maintenance and operation of the generation station and adjacent park
- Basic office work and general administration
- Data collection
- Electronic data retrieval and analysis
- Social Media
- Research

Requirements:

- Should be a current University or College student or recent graduate
- Ability to work 30-35 hours per week for 14-16 weeks (May – Aug)
- Basic computer skills including proficiency in Microsoft Office

Conditions of Work:

- Must be prepared to work outdoors in all weather conditions
- Must be capable of performing physical tasks

Experience, education or particular interest in renewable energy, machinery maintenance, electronic data retrieval and analysis, or social media would be considered an asset.

We offer a supportive work environment and the opportunity to gain valuable experience in the hydroelectric power generation industry. If you are interested in this exciting opportunity, please submit your resume and a cover letter detailing your relevant experience or education and why you would be a good fit for this role.

We thank all applicants for their interest; however, only those selected for an interview will be contacted.

To apply, please email your resume and cover letter to snewton@mississippiriverpower.com prior to March 19th at noon. Email subject line should read, "Summer Student Employment".
