## **DOWNTOWN ALMONTE CONSTRUCTION 2022-2023**

### **Construction Update**

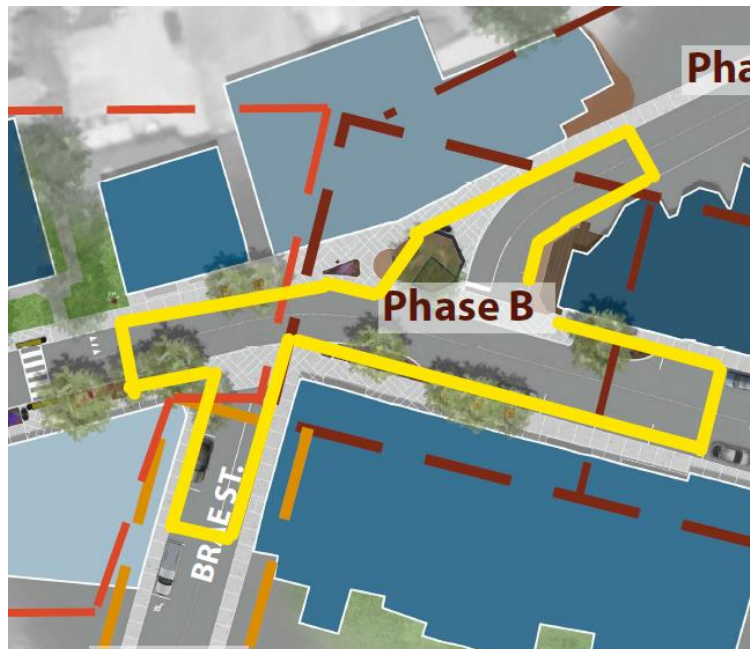

#### **Phase A**

Cavanagh Construction has installed concrete sidewalks and the first layer of asphalt within Phase A. A final layer of asphalt will be placed over all phases once the work is done next year. It's expected that rough landscape work will be completed by this fall, with more trees being planted during the final stages of summer 2023.

#### **Phase B**

Cavanagh has commenced on site works in preparation for Phase B. This includes sidewalk and asphalt removals, placement of temporary road closure and detour signage, as well as underground work which will start with a scheduled water disruption. Residents and businesses affected by this disruption have been given paper notice from Cavanagh. Temporary overland sewage bypass pipes will also be installed. This bypass pump is temporary for the duration of the sanitary sewer install and will be relocated along Mill as work progresses.

A scheduled road closure is in place for the intersection of Brae Street and Mill Street to Little Bridge and Mill Street to help facilitate the upcoming underground works.

### **Cavanagh Construction Contact Info**

Cavanagh Construction has delivered their notification to residents and businesses; they can be contacted at the following:
