The Water and Wastewater Master Plan is Finished!

How we got here

- ➔ In 2022, municipal staff hired J.L. Richards and Associates Ltd. To complete a study on the Municipality's water and wastewater systems and to create a plan on how to improve existing conditions, as well as prepare for future population growth.
- ➔ Parsons completed the work in November 2024 and the final report and master plan was accepted by Council on December 10, 2024.

What's next for the Municipality?

- ➔ Staff have been working the development charges team to get water and wastewater projects into the 2025 Development Charges Background Study.
- ➔ A Request for Proposals for an environmental assessment of the wastewater treatment plant and the Gemmill's Bay sewage pumping station has been opened. *(Expected to be awarded in April 2025)*
- ➔ Staff have begun the procurement of proposals for work related to increasing pumping capacity at municipal wells 7 and 8.
