Introduction

The Municipality of Mississippi Mills is a growing community with a mix of both urban and rural areas. The population according to the 2016 census is 13,163.

The Municipality provides multiple services that are detailed in the 2019 budget document. These services are managed by many departments that employ over 100 staff as full time, part time, seasonal , casual and students to provide the quality programs and services that the community enjoys, enabling Mississippi Mills to maintain its unique charm and excellent quality of life.

Council's responsibility is to provide wise stewardship of all municipally owned assets; human, financial and physical. Financial decisions will be required to meet the needs of the community while still providing quality services. It is Council's responsibility to make the best use of public funds to ensure that the residents are getting the most out of the taxes they pay.

Council also needs to ensure that their decisions are in keeping with legislation, Municipal by-laws, policies and Federal and Provincial regulations. In addition to the *Municipal Act*, the key legislation that may impact items included in the budget is as follows:

- ▶ *Occupational Health & Safety Act*
- ▶ *Ontario Building Code*
- ▶ *Fire Protection and Prevention Act*
- ▶ *Ontario Planning Act*
- ▶ *Development Charges Act*
- ▶ *Education Act*
- ▶ *Drainage Act*
- ▶ *Tile Drainage Act*
- ▶ *Environmental Assessment Act*
- ▶ *Highway Traffic Act*
- ▶ *Public Libraries Act*
- ▶ *Employment Standards Act*

2019 Budget Assumptions & Challenges

Municipalities are prevented from having budgets that do not balance per Section 290 (2) (b) of the *Municipal Act*. Unlike Federal and Provincial budgets that can be approved with a deficit, a Municipality's annual revenues and expenses must be equal. Expenses and revenues must also be kept separate and not netted against each other. This is an important concept in understanding and following the budget document.

The 2019 municipal budget includes the following changes over 2018:

Staffing:

- ▶ The Community and Economic Development budget includes a new administrative support position.
- ▶ The Daycare budget also includes an administration support position. This change is almost entirely offset by other daycare revenues and grants.
- ▶ The Planning budget includes a summer student.

General Operating:

- ▶ Within the public works budget spraying for wild parsnip has been included based on the direction from council in 2018.
- ▶ Winter control has increased based on historical trend data and to reflect expected winter conditions in 2019.
- ▶ Utility costs have increased particularly for water usage at the Gemmill Park splash pad to reflect actual activity in 2018.
- ▶ Contracts for recycling, waste collection and the OPP have increased. Most of these cost increases are offset by other revenues for these services.
- ▶ Cost sharing with the Town of Carleton Place has increased

Capital/Reserves/Debt:

- ▶ Reserves are being used to fund capital and operating items where appropriate. Refer to the details on reserves included in this document.
- ▶ No new debt is being proposed for 2019 however some carryover projects from 2018 previously approved for financing will be finalized by Council in 2019.

Revenues:

- ▶ Tax revenue increase is 2.5%; 1.25% from new assessment related to growth and 1.25% from existing assessment.
- ▶ General revenues are projected for 2019 consistent with historical trend data. For those departments that earn 100% of their own revenues, the revenues have changed to offset fully their 2019 budgets (Septage, Building and Waste Management).
- ▶ Gas Tax revenue has been applied to road projects within the capital budget consistent with previous budgets and the approved long term financial plan. The Gas tax grant is formula based and no application is required.
- ▶ Ontario Community Infrastructure Funding (OCIF) has been applied to road projects within the capital budget consistent with previous budgets. This funding is formula based.
- ▶ Hydro revenue is shared with the municipal budget based on By-law 15-128. For 2019 the allocation is 37% water and sewer and 63% municipal.

EXECUTIVE SUMMARY

The Municipality is considered to be a **service organization** and therefore the largest proportion of operating expenditures is for salaries and benefits. **This will be true of most Municipalities or service organizations.** In Mississippi Mills, staffing includes firefighters, library staff, childcare employees, parks and recreation workers, road crews and the administrators who, under Council’s direction, oversee the delivery of services to residents. Materials and contracts is the next largest expenditure of the Municipality for items such as policing, recycling, waste collection and winter control.

MUNICIPALITY OF MISSISSIPPI MILLS ORGANIZATION CHART 2018

The operating needs of the Municipality allocated by department are depicted as follows:

ASSET MANAGEMENT AND LONG TERM PLANNING

In 2017, a new Asset Management Regulation was passed by the Province of Ontario requiring municipalities to complete asset management policies and plans by specified dates and with prescribed contents. As a result the current Asset Management Plan will require updating. Funds are included in the 2019 budget to continue work on the plan. (<https://www.ontario.ca/laws/regulation/170588?search=asset+management+regulation>)

An approved **Asset Management Plan** provides Council with detailed information on the state of municipal infrastructure so that informed resource allocation decisions can be made. Staff can then plan in advance for asset replacement and rehabilitation and communicate this to residents along with annual progress updates as to improvements in this area. The infrastructure replacement needs identified within the asset management plan can then be included in the long term financial plan and the annual budget.

The Municipality's current Asset Management Plan and Long Term Financial Plan can be found at <https://www.mississippimills.ca/en/townhall/financialstatements.asp>. **An up to date Asset Management Plan is required in order to obtain any infrastructure grant funding from the Province and is a requirement of the Federal Gas Tax Program.**

The Municipality maintains and funds from the tax base and other general revenues assets such as:

- 2 Libraries (Almonte and Pakenham)
- 2 Fire Stations (Almonte and Pakenham)
- 2 Arenas with ice surfaces and upper halls (Almonte and Pakenham)
- 1 Curling Rink
- 1 Child Care Centre It also runs programs in schools within Almonte and an expanded program at the Catholic School is planned in 2019
- 15 Bridges
- 11 Large culverts
- 97 km of surface treated roads
- 96 km of paved roads
- 186 km of gravel roads
- 1 splash pad
- 2 skateboard parks (Almonte and Pakenham)
- 19 parks, 10 with amenities

- 144 acres of parkland/green space
- 3 public works garages
- 1 Municipal Office
- The Almonte Old Town Hall
- The Almonte Old Registry office
- 12 Fire Vehicles
- 31 Public Works vehicles/ equipment
- 10 Recreation vehicles/ equipment
- 2 Building Department Vehicles
- 2 Beautification Vehicles
- Streetlights
- 36 km of sidewalks and curbs
- Signage
- Other Equipment

To be sustainable the Municipality must ensure that it is spending/investing appropriately on capital improvements and preparing and planning for future capital including growth related needs, technological improvements or changes required as a result of climate change along with all the operational needs of the Municipality.

Once the full implications of the new asset planning regulation are determined, an updated long term financial plan will be required to address the financial needs included in the asset management plan.

Over the last few years, Council made a commitment to provide funding through the long term financial plan the annual budget and the asset management plan for asset replacement. As a result, improvements have been made as represented in the following charts:

This table indicates changes in the condition of bridges and culverts since 2013:

Also in 2018, Council approved a new development charges study and by-law to provide an additional funding source for capital needs as a result of growth. Information on development charges can be found at

DEBT AND RESERVES

When determining how to pay for asset replacement, the Municipality considers the following options:

- 1) Out of the current budget (pay as you go). This means that the residents of today pay the full cost.
- 2) By a long term financing arrangement (debt). This means that future residents pay the majority of the cost as they are also the ones who benefit from assets with long lives.
- 3) Out of reserves. This means that those residents in the past paid for the asset through a previous allocation to reserves.
- 4) By an internal financing arrangement. This means that funds are taken out of reserves in the current year and repaid over time. Again, this means that future residents pay the cost of the asset but it also protects the reserve from being depleted.
- 5) By other revenue sources such as the fundraising, Federal, Provincial and County grants, development charges, etc.

Which option is chosen depends on the funding source outlined in the long term financial plan and other planning documents, the availability of reserves, grants and other revenues or as approved by Council.

DEBT

The Municipality has taken advantage of lower interest rates over the last few years to address the backlog of capital replacement. Debt is considered for assets with expected lives in excess of 10 years with terms not to exceed 20 years.

Debt allows for the cost of an asset to be repaid over the life of the asset and not paid all at once. It also means that tax rates are smoothed out and prevents large spikes in taxation in years where major capital replacement is required. Annual debt repayments included in the budget are also considered an investment in capital. Over time, as debt is repaid, the principal and interest payments already included in the budget can be reallocated to replacement needs in that year or be reallocated to reserves for future replacement to minimize tax increases.

2014 to 2019 principal on debt is depicted as follows:

The large increase in debt between 2017 and 2018 is for a number of vehicle and equipment purchases, work on 3 bridges, culvert replacements and facility improvements.

With no new debt being proposed in the 2019 budget, other than what is carried over from 2018, debt is expected to decline beginning in 2019 as principal is repaid.

Lower debt payments are consistent with the long term financial plan.

RESERVES:

Reserve balances fluctuate annually depending on the availability of funds in the annual budget to build up the reserve and then conversely the use of reserves annually for projects that funds were set aside for.

Reserves are used to plan for future capital replacement needs to try and smooth out tax rate changes so that large spikes do not occur in years where large capital improvements or replacements are required. A common practice of the Municipality is to “borrow” funds from reserves to complete a project that is larger in value to avoid external debt financing and as a mechanism to protect the reserve balance in the long term because the amount will be repaid back to reserves over a number of years.

If reserves are depleted in any budget year, then there will be limited funds available in another year to complete required work. This would then equate to a very large increase in taxation.

Reserves are also needed to address emergency situations that may arise from time to time. 2014- 2019 municipal reserves are depicted as follows:

This chart includes additions to and the use of reserves for internally financed projects as follows:

Municipal reserves are made up of multiple departmental reserves, some of which are restricted in their use. For example, contributions from the waste management budgets, the building department and septage come from user fees and not taxes and therefore should not be used to pay for items that would normally be funded from taxation. Similarly, policing reserves should only be used for policing matters to help address changes to the annual contract and winter control reserves are meant to be used in years where winter control is over budget because of a bad winter season.

The reserve balances at December 31, 2018 is \$6,845,078 and 2019 is estimated at \$5,892,755:

With an estimated capital reserve balance at the end of 2019 of \$1.4 million and a future replacement cost of municipal infrastructure conservatively estimated at \$90.9 million, the Municipality is projected to have 1.5% of the cost of capital up front by the end of 2019. This means that when capital replacement is needed in the future, some other funding source will be required and will likely depend on tax increases. It is important that the Municipality consider increasing the reserve balance in anticipation of future capital needs.

The long term financial plan does not project increases in reserves until long term debt is repaid and the payments reallocated.

OPERATING REVENUE

The Municipality has a number of revenue sources in addition to taxation that helps pay for the cost of programs and services. For example, the waste management charge covers the full cost of providing waste management services. Likewise, septage fees pay the full cost of the service and building permit fees cover the full costs of the department and are not paid for through the tax levy.

Development charges help pay for expenditures required as a result of growth and grants and other user fees are available in addition to general licenses and permits. The Municipality also collects interest on its investments and penalties and interest on overdue taxes.

Revenues are typically shown in the budget document with a negative sign in front of the figure.

LONG TERM FINANCIAL PLAN:

For the last five years the Municipality has been following the long term financial plan which outlines target expenditure and revenue totals, as well as target reserve, debt and capital needs. This chart shows the draft budget comparison to the target long term financial plan totals for 2019. Although some operational items are over budget as noted, departments were able to reallocate capital needs and increase expected revenues to achieve the target of a 2.5% tax revenue increase. **The long term financial plan requires updating in 2019.**

TAXATION

An increase in the required amount of tax revenue to balance the budget does not necessarily translate to the same tax rate change. What happens to the tax rate depends on the assessment change during the year and the overall expenditure level that taxes are required to cover.

The Municipality must levy and collect taxes on behalf of the County of Lanark and the School Boards. These taxes are then paid to those entities regardless of whether the taxpayer has paid them to the Municipality or not. If not, they form part of the tax arrears of the Municipality however the Municipality is permitted to keep any penalties and interest on those tax arrears.

BREAKDOWN OF TAX BILL

Over the last few years the Municipality has been following the approved long term financial plan with 7% tax revenue increases from 2013-2018. This did not equate to the same overall tax increase:

Year	Avg. Residential Assessment	Residential Tax Rate	Average Residential Taxes per year	Change over Previous Year	% Change over Previous Year	Monthly Increase to average resident
2014	\$288,000	1.087986%	\$3,133.39			
2015	\$303,000	1.064122%	\$3,224.29	\$90.90	2.90%	\$7.58
2016	\$315,000	1.053824%	\$3,319.55	\$95.26	2.95%	\$7.93
2017	\$322,000	1.064578%	\$3,427.94	\$108.39	3.17%	\$9.03
2018	\$334,000	1.058002%	\$3,533.73	\$105.79	3.08%	\$8.82

Still following the approved plan for 2019, the projected tax revenue increase is 2.5%. In addition, the Municipality expects to receive taxation during the year from new development in the form of supplemental assessment.

The Municipality's taxable assessment increase is 4.02% over 2018.

COUNCIL

The Municipality is governed by an elected Council comprised of 7 members; Mayor, Deputy Mayor, and 5 Councillors (2 Almonte Ward, 2 Ramsay Ward and 1 Pakenham Ward). Each Council term is four (4) years.

All members of Council meet twice a month at Committee of the Whole and Council meetings. Committee of the Whole meetings are intended to be a less formal forum for discussion and analysis of issues. Committee of the Whole does not have the authority to authorize final actions and decisions, instead it reviews and gathers information and formulates a recommendation that is then provided to Council for a decision. Both Committee of the Whole and Council meetings are open to the public and attendance is welcome.

CHILDCARE

The Municipality provides **Childcare** services for its residents to support young families who live in this community. The Daycare Centre employs highly trained qualified staff to provide care for infants, toddlers, pre-school age children and before and after school care. Summer programs are also available in July and August.

In 2019 there is a proposed expansion of the service as a new facility is being constructed by the Catholic District School Board available for lease to the Municipality. This arrangement allows us to grow this program at a relatively low cost.
