## **2019 BUDGET**

#### Introduction

The Municipality of Mississippi Mills is a growing community with a mix of both urban and rural areas. The population according to the 2016 census is 13,163.

The Municipality provides multiple services that are detailed in the 2019 budget document. These services are managed by many departments that employ over 100 staff as full time, part time, seasonal, casual and students to provide the quality programs and services that the community enjoys, enabling Mississippi Mills to maintain its unique charm and excellent quality of life.

Council's responsibility is to provide wise stewardship of all municipally owned assets; human, financial and physical. Financial decisions will be required to meet the needs of the community while still providing quality services. It is Council's responsibility to make the best use of public funds to ensure that the residents are getting the most out of the taxes they pay.

Council also needs to ensure that their decisions are in keeping with legislation, Municipal bylaws, policies and Federal and Provincial regulations. In addition to the *Municipal Act*, the key legislation that may impact items included in the budget is as follows:

- Occupational Health & Safety Act
- Ontario Building Code
- Fire Protection and Prevention Act
- Ontario Planning Act
- Development Charges Act
- Education Act
- Drainage Act
- Tile Drainage Act
- Environmental Assessment Act
- Highway Traffic Act
- Public Libraries Act
- Employment Standards Act

#### 2019 Budget Assumptions & Challenges

Municipalities are prevented from having budgets that do not balance per Section 290 (2) (b) of the *Municipal Act*. Unlike Federal and Provincial budgets that can be approved with a deficit, a Municipality's annual revenues and expenses must be equal. Expenses and revenues must also be kept separate and not netted against each other. This is an important concept in understanding and following the budget document.

The draft 2019 municipal budget being presented in this document is balanced based on the assumption that the previously approved long term financial plan is to be followed. Additional information/assumptions included in the 2019 draft budget are as follows:

#### Staffing:

- The Community and Economic Development budget includes a new administrative support position.
- ▶ The Daycare budget also includes an administration support position. This change is almost entirely offset by other daycare revenues and grants.
- The Planning budget includes a summer student.

#### **General Operating:**

- ▶ Within the public works budget spraying for wild parsnip has been included based on the direction from council in 2018.
- ▶ Winter control has increased based on historical trend data and to reflect expected winter conditions in 2019.
- ▶ Utility costs have increased particularly for water usage at the Gemmill Park splash pad to reflect actual activity in 2018.
- ▶ Contracts for recycling, waste collection and the OPP have increased. Most of these cost increases are offset by other revenues for these services.
- ▶ Cost sharing with the Town of Carleton Place has increased by \$15,146 over the first draft.

#### Capital/Reserves/Debt:

▶ The capital program is lower than the target included in the approved long term financial plan to address operational requirements and to keep within a 2.5% levy increase target.

| Major capital projects removed by Staff to balance budget | Cost        | Tax Revenue Increase if added back to budget (1% equals \$99,310) |
|-----------------------------------------------------------|-------------|-------------------------------------------------------------------|
| Plow Truck                                                | \$240,000   | 2.42%                                                             |
| Levi Bridge (removed and added Shaw Bridge)               | \$753,000   | 7.59%                                                             |
| Ottawa St. Landscape Plan                                 | \$177,400   | 1.79%                                                             |
| Lighting at the Almonte and Pakenham Arenas               | \$144,000   | 1.45%                                                             |
| Total                                                     | \$1,300,400 | 13.10%                                                            |

- Reserves are being used to fund capital and operating items where appropriate. Refer to the details on reserves included in this document.
- No new debt is being proposed for 2019 however some projects previously approved for financing may be carried forward into the 2019 budget if they are unfinished at the end of 2018. In addition, some financing approved in the 2018 budget will not be finalized by Council until 2019.
- Unfinished capital projects from 2018 have been updated along with the associated funding.

#### **Revenues:**

- ► Tax revenue increase is 2.5%; 1.25% from new assessment related to growth and 1.25% from existing assessment.
- ▶ General revenues are projected for 2019 consistent with historical trend data. For those departments that earn 100% of their own revenues, the revenues have changed to offset fully their 2019 budgets (Septage, Building and Waste Management).
- ▶ It is assumed that the Ontario Municipal Partnership Fund (OMPF), the primary operating grant for the Municipality, will remain the same as 2018. The Province has advised that a review is underway. It is unknown what impacts this will have on future budgets.
- Gas Tax revenue has been applied to road projects within the capital budget consistent with previous budgets and the approved long term financial plan. The Gas tax grant is formula based and no application is required.
- Ontario Community Infrastructure Funding (OCIF) has been applied to road projects within the capital budget consistent with previous budgets. This funding is formula based however there is a secondary OCIF grant that is application based. The Municipality applies when possible for projects that meet the program criteria.

- It is unknown at this time if dividends will be received for 2019 from Mississippi River Power Corporation (MRPC) to further offset the capital program.
- ▶ Hydro revenue will be shared with the municipal budget based on By-law 15-128. For 2019 the allocation is 37% water and sewer and 63% municipal.

The following list represents the changes made since the budget meetings on January 15 and January 17, 2019:

The Municipality is considered to be a **service organization** and therefore the largest proportion of operating expenditures is for salaries and benefits. **This will be true of most Municipalities or service organizations.** The 2017 Provincial Financial Information Return (FIR) summary which incorporates data from all municipalities in the Province of Ontario indicates that salaries, wages and benefits are on average 50.3% of total expenditures before depreciation is considered. In Mississippi Mills, staffing includes firefighters, library staff, childcare employees, parks and recreation workers, road crews and the administrators who, under Council's direction, oversee the delivery of services to residents. Materials and contracts is the next largest expenditure of the Municipality for items such as policing, recycling, waste collection and winter control.

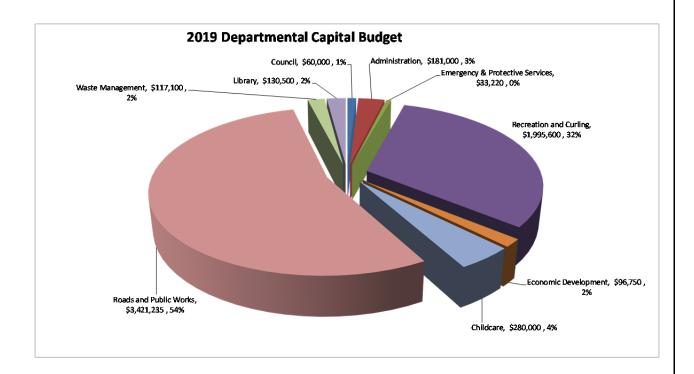

## MUNICIPALITY OF MISSISSIPPI MILLS ORGANIZATION CHART 2018

The operating needs of the Municipality allocated by department are depicted as follows:

2) The capital budget of \$6,389,905 includes infrastructure replacement and rehabilitation for roads, bridges, facilities, etc. along with the required studies to support the capital program. The capital budget is broken down by department as outlined in the following chart:

Please refer to the detailed capital budget for the projects being proposed for 2019. The amounts shown in the immediate right hand column represent the amounts that need to be paid from taxation and general operating revenues after all other capital revenue sources (grants, development charges, reserves, etc.) have been considered. The numbers in the right hand column are then included in the operating budgets for each department under the line entitled "Capital Expenditure".

#### ASSET MANAGEMENT AND LONG TERM PLANNING

In 2017, a new Asset Management Regulation was passed by the Province of Ontario requiring municipalities to complete asset management policies and plans by specified dates and with prescribed contents. As a result the current Asset Management Plan will require updating. Funds are included in the 2019 budget to continue work on the plan. (<a href="https://www.ontario.ca/laws/regulation/170588?search=asset+management+regulation">https://www.ontario.ca/laws/regulation/170588?search=asset+management+regulation</a>)

An approved **Asset Management Plan** provides Council with detailed information on the state of municipal infrastructure so that informed resource allocation decisions can be made. Staff can then plan in advance for asset replacement and rehabilitation and communicate this to residents along with annual progress updates as to improvements in this area. The infrastructure replacement needs identified within the asset management plan can then be included in the long term financial plan and the annual budget.

The Municipality's current Asset Management Plan and Long Term Financial Plan can be found at <a href="https://www.mississippimills.ca/en/townhall/financialstatements.asp">https://www.mississippimills.ca/en/townhall/financialstatements.asp</a>. An up to date Asset Management Plan is required in order to obtain any infrastructure grant funding from the Province and is a requirement of the Federal Gas Tax Program.

The Municipality maintains and funds from the tax base and other general revenues assets such as:

#### SUSTAINABLE ASSET MANAGEMENT

To be sustainable the Municipality must ensure that it is spending/investing appropriately on capital improvements and preparing and planning for future capital including growth related needs, technological improvements or changes required as a result of climate change along with all the operational needs of the Municipality.

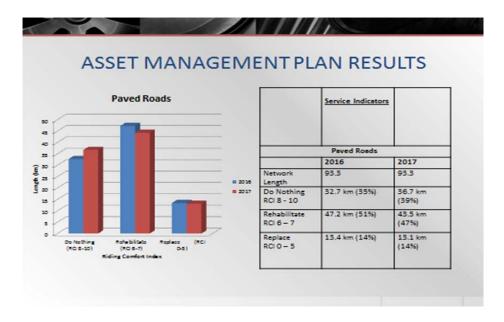

Once the full implications of the new asset planning regulation are determined, an updated long term financial plan will be required to address the financial needs included in the asset management plan.

Over the last few years, Council made a commitment to provide funding through the long term financial plan the annual budget and the asset management plan for asset replacement. As a result, improvements have been made as represented in the following charts:

This table indicates changes in the condition of bridges and culverts since 2013:

| Bridges  | 2013 | 2016 | 2017 |
|----------|------|------|------|
| Good     | 8%   | 17%  | 22%  |
| Fair     | 21%  | 20%  | 21%  |

In 2018, the cost to pave a km of road including pulverizing and a 6" granular base is \$204,750.

This table indicates changes in the condition of surface treated roads since 2013:

|      | 2013 | 2016 | 2017 |
|------|------|------|------|
| Good | 15%  | 22%  | 31%  |
| Fair | 75%  | 31%  | 31%  |
| Poor | 10%  | 47%  | 38%  |

In 2018 the cost of a km of surface treated road including pulverizing and a 6" granular base is \$89,375.

Also in 2018, Council approved a new development charges study and by-law to provide an additional funding source for capital needs as a result of growth. Information on development charges can be found at

#### **DEBT AND RESERVES**

When determining how to pay for asset replacement, the Municipality considers the following options:

- 1) Out of the current budget (pay as you go). This means that the residents of today pay the full cost.
- 2) By a long term financing arrangement (debt). This means that future residents pay the majority of the cost as they are also the ones who benefit from assets with long lives.
- 3) Out of reserves. This means that those residents in the past paid for the asset through a previous allocation to reserves.
- 4) By an internal financing arrangement. This means that funds are taken out of reserves in the current year and repaid over time. Again, this means that future residents pay the cost of the asset but it also protects the reserve from being depleted.
- 5) By other revenue sources such as the fundraising, Federal, Provincial and County grants, development charges, etc.

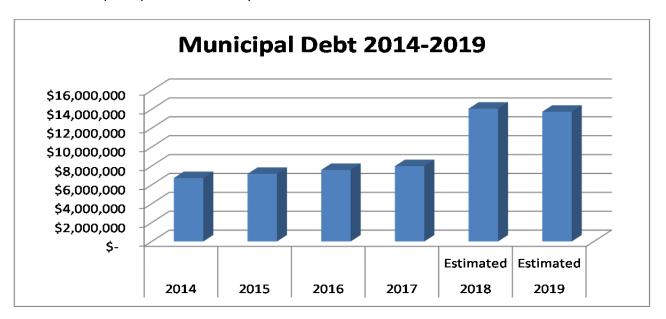

Which option is chosen depends on the funding source outlined in the long term financial plan and other planning documents, the availability of reserves, grants and other revenues or as approved by Council.

#### DEBT

The Municipality has taken advantage of lower interest rates over the last few years to address the backlog of capital replacement. Debt is considered for assets with expected lives in excess of 10 years with terms not to exceed 20 years.

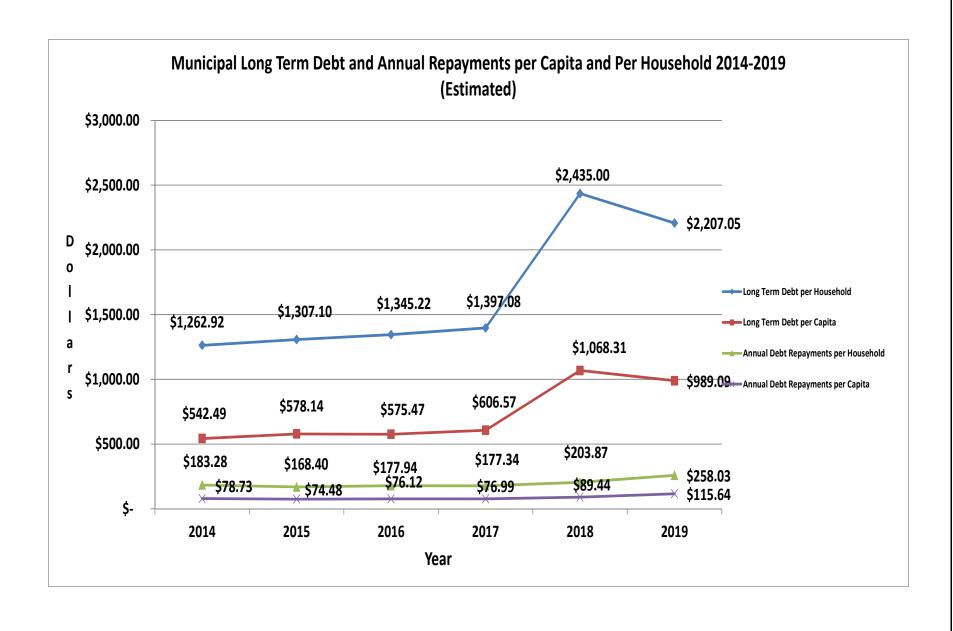

Debt allows for the cost of an asset to be repaid over the life of the asset and not paid all at once. It also means that tax rates are smoothed out and prevents large spikes in taxation in years where major capital replacement is required. Annual debt repayments included in the budget are also considered an investment in capital. Over time, as debt is repaid, the principal and interest payments already included in the budget can be reallocated to replacement needs in that year or be reallocated to reserves for future replacement to minimize tax increases.

2014 to 2019 principal on debt is depicted as follows:

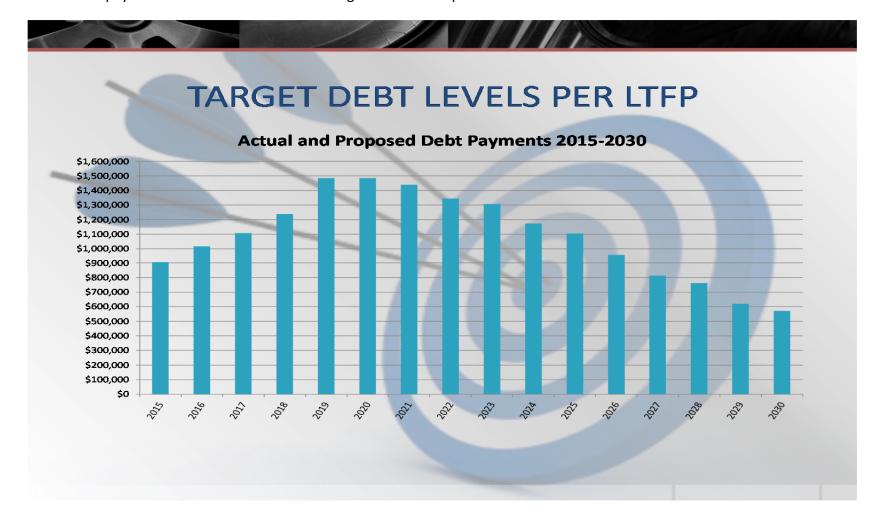

The large increase in debt between 2017 and 2018 is for a number of vehicle and equipment purchases, work on 3 bridges, culvert replacements and facility improvements.

With no new debt being proposed in the 2019 budget, other than what is carried over from 2018, debt is expected to decline beginning in 2019 as principal is repaid.

Lower debt payments are consistent with the long term financial plan.

#### **RESERVES:**

Reserve balances fluctuate annually depending on the availability of funds in the annual budget to build up the reserve and then conversely the use of reserves annually for projects that funds were set aside for.

Reserves are used to plan for future capital replacement needs to try and smooth out tax rate changes so that large spikes do not occur in years where large capital improvements or replacements are required. A common practice of the Municipality is to "borrow" funds from reserves to complete a project that is larger in value to avoid external debt financing and as a mechanism to protect the reserve balance in the long term because the amount will be repaid back to reserves over a number of years.

If reserves are depleted in any budget year, then there will be limited funds available in another year to complete required work. This would then equate to a very large increase in taxation.

Reserves are also needed to address emergency situations that may arise from time to time. 2014- 2019 municipal reserves are depicted as follows:

This chart includes additions to and the use of reserves for internally financed projects as follows:

Municipal reserves are made up of multiple departmental reserves, some of which are restricted in their use. For example, contributions from the waste management budgets, the building department and septage come from user fees and not taxes and therefore should not be used to pay for items that would normally be funded from taxation. Similarly, policing reserves should only be used for policing matters to help address changes to the annual contract and winter control reserves are meant to be used in years where winter control is over budget because of a bad winter season.

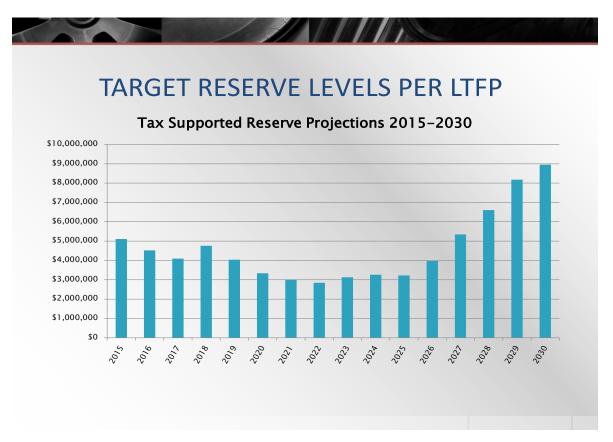

## The reserve balances at December 31, 2018 is \$6,845,078 and 2019 is estimated at \$5,892,755:

With an estimated capital reserve balance at the end of 2019 of \$1.4 million and a future replacement cost of municipal infrastructure conservatively estimated at \$90.9 million, the Municipality is projected to have 1.5% of the cost of capital up front by the end of 2019. This means that when capital replacement is needed in the future, some other funding source will be required and will likely depend on tax increases. It is important that the Municipality consider increasing the reserve balance in anticipation of future capital needs.

The long term financial plan does not project increases in reserves until long term debt is repaid and the payments reallocated.

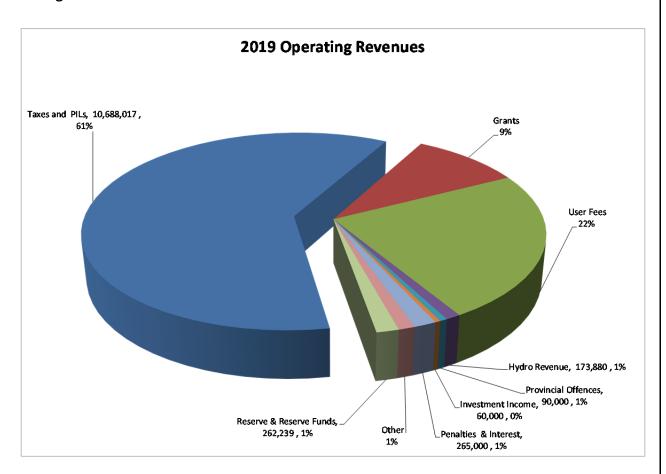

#### **OPERATING REVENUE**

The Municipality has a number of revenue sources in addition to taxation that helps pay for the cost of programs and services. For example, the waste management charge covers the full cost of providing waste management services. Likewise, septage fees pay the full cost of the service and building permit fees cover the full costs of the department and are not paid for through the tax levy.

Development charges help pay for expenditures required as a result of growth and grants and other user fees are available in addition to general licenses and permits. The Municipality also collects interest on its investments and penalties and interest on overdue taxes.

Revenues are typically shown in the budget document with a negative sign in front of the figure.

This chart compares the 2019 draft budget with the 2018 budget and actuals for the last few years. It is a different representation of much of the information from the previous chart except the County and School board revenue and expenses are also included. Also shown are the departmental costs to be paid out of taxation and general revenues.

#### **LONG TERM FINANCIAL PLAN:**

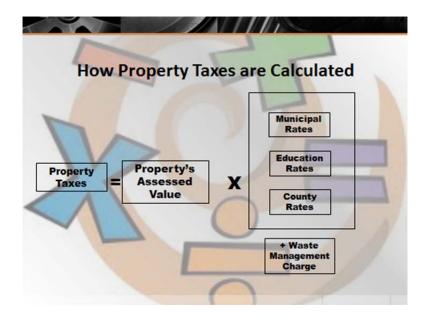

For the last five years the Municipality has been following the long term financial plan which outlines target expenditure and revenue totals, as well as target reserve, debt and capital needs. This chart shows the draft budget comparison to the target long term financial plan totals for 2019. Although some operational items are over budget as noted, departments were able to reallocate capital needs and increase expected revenues to achieve the target of a 2.5% tax revenue increase. The long term financial plan requires updating in 2019.

#### **TAXATION**

An increase in the required amount of tax revenue to balance the budget does not necessarily translate to the same tax rate change. What happens to the tax rate depends on the assessment change during the year and the overall expenditure level that taxes are required to cover.

The Municipality must levy and collect taxes on behalf of the County of Lanark and the School Boards. These taxes are then paid to those entities regardless of whether the taxpayer has paid them to the Municipality or not. If not, they form part of the tax arrears of the Municipality however the Municipality is permitted to keep any penalties and interest on those tax arrears.

### **BREAKDOWN OF TAX BILL**

Over the last few years the Municipality has been following the approved long term financial plan with 7% tax revenue increases from 2013-2018. This did not equate to the same overall tax increase:

Still following the approved plan for 2019, the projected tax revenue increase is 2.5%. In addition, the Municipality expects to receive taxation during the year from new development in the form of supplemental assessment.

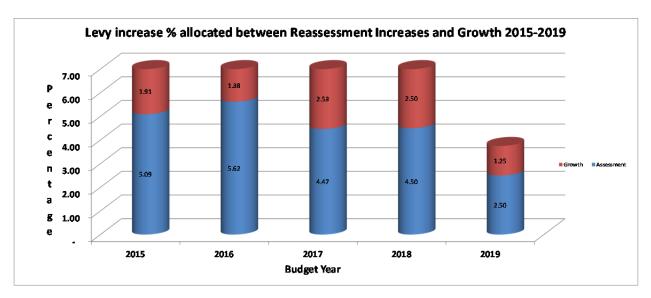

The Municipality's taxable assessment increase is 4.02% over 2018.

With assessment increasing more than the required taxation revenue needs of 2.5%, **it is expected that the overall tax rate will decrease.** Per the table below the 2018 tax rate is .01058002 or 1.058002% and in 2019 it is projected to be .01047155 or 1.047155%, a decrease of 1.03%. Of the projected tax revenue increase of 2.5%, 1.25% is expected to come from new growth as depicted in the assessment chart below.

#### COUNCIL

The Municipality is governed by an elected Council comprised of 7 members; Mayor, Deputy Mayor, and 5 Councillors (2 Almonte Ward, 2 Ramsay Ward and 1 Pakenham Ward). Each Council term is four (4) years.

All members of Council meet twice a month at Committee of the Whole and Council meetings. Committee of the Whole meetings are intended to be a less formal forum for discussion and analysis of issues. Committee of the Whole does not have the authority to authorize final actions and decisions, instead it reviews and gathers information and formulates a recommendation that is then provided to Council for a decision. Both Committee of the Whole and Council meetings are open to the public and attendance is welcome.

#### **ADMINISTRATION**

The **Administration** Department provide corporate, information and administrative services that support other departments in the on-going operations of the Municipality. The Administration Department consists of the office of the Chief Administrative Officer (CAO), the office of the Clerk and Finance including the costs of operating and maintaining administrative facilities; the Municipal Office, The Almonte Old Town Hall and the Old Almonte Registry Office.

The **CAO** reports directly to Council and is the senior staff person who provides organizational leadership to the municipal Staff and chairs the Senior Management team meetings. This position is responsible for the administration and coordination of the delivery of services to residents and businesses in a manner that ensures the efficient utilization of the Corporation's human, financial and physical resources and is consistent with the service standards approved within the annual budget and other planning documents. The CAO acts as an advisor to Council in the development of public policies ensuring that Council is provided with all relevant information necessary to make informed decisions. The CAO is also responsible for developing collaborative relationships within the community, other Municipalities and all levels of government.

The **Clerk** is responsible for a number of legislated duties including recording the minutes of all Committee of the Whole and Council meetings, drafting by-laws, acting as a local Registrar for births and deaths, acting a Returning Officer for municipal elections and various other duties as specified in legislation, including the *Municipal Freedom of Information and Protection of Privacy Act*.

The **Finance** department is responsible for long term financial planning, annual budget development, investment management, municipal insurance, development charges, general accounting, treasury and cash management and all statutory reports. The department also levies and calculates property taxes, generates utility billings, collects all monies owed to the Municipality, processes payments for all departments of the Municipality and manages the payroll system for the Municipality's 100+ employees.

#### **EMERGENCY AND PROTECTIVE SERVICES**

**Emergency and Protective services** is made up of the Fire Department, Police, and other general protection such as by-law and animal control.

The **Fire Department** is comprised of a Fire Chief, District Chiefs, an Inspection Officer, Administrative Support and approximately 46 volunteer firefighters that operate out of two stations.

The Municipality is serviced by the Ontario Provincial **Police** (OPP) through a contract arrangement. Council has an oversight committee called the Community Policing Advisory Committee or CPAC.

**Other Protection** services are offered primarily by contract and include by-law services for such items as parking and animal control, facility management and health and safety.

#### PLANNING AND BUILDING

**Planning** is responsible for all aspects of land use planning as mandated by the *Ontario Planning Act* including community plans and development application reviews and approvals. The department is responsible for the development and implementation of the Community Official Plan and zoning by-laws. It also deals with severances, subdivision development, minor variances and site plan control. Planning oversees the management of cultural heritage assets with support from the Municipality's Heritage Committee.

The **Building Department** oversees construction in the Municipality in accordance with the *Ontario Building Code* including issuing building permits, carrying out inspections and providing information on all aspects of building within the Municipality. The building department's expenses are offset by building permit revenue **and no funding is provided through municipal taxation.**

#### COMMUNITY AND ECONOMIC DEVELOPMENT

Mississippi Mills is a growing Municipality with over 13,000 residents. **Economic Development** is important for the Municipality in order to maintain its high quality of life, natural heritage, rural culture and small town charm. Economic Development is needed to attract and retain businesses to support the Municipality's continued growth and development. Economic Development also includes funding to support organizations through its municipal grant program (<a href="https://www.mississippimills.ca/en/townhall/municipalgrants.asp">https://www.mississippimills.ca/en/townhall/municipalgrants.asp</a>).

#### **CHILDCARE**

The Municipality provides **Childcare** services for its residents to support young families who live in this community. The Daycare Centre employs highly trained qualified staff to provide care for infants, toddlers, pre-school age children and before and after school care. Summer programs are also available in July and August.

In 2019 there is a proposed expansion of the service as a new facility is being constructed by the Catholic District School Board available for lease to the Municipality. This arrangement allows us to grow this program at a relatively low cost.

#### **SEPTAGE**

The **septage** budget is for operational items related to the septage receiving facility located at the site of the waste water treatment plant. **All costs of septage are recovered through tipping fees and are not paid for from taxation or water and sewer billings.** There are two different charges; one for internal haulers (Mississippi Mills) and one for haulers outside of the Municipality.

### THE CORPORATION OF THE MUNICIPALITY OF MISSISSIPPI MILLS STAFF REPORT

**DATE:** March 12, 2019

TO: Council

**FROM:** Rhonda Whitmarsh, Treasurer

**SUBJECT: Crossing Guard** 

#### RECOMMENDATION:

This report is being presented for discussion purposes.

#### **BACKGROUND:**

At the budget meeting on January 17, 2019, a request to add crossing guards to the draft 2019 budget was raised with staff to investigate to determine costs and feasibility.

#### **DISCUSSION:**

I contacted the Town of Carleton Place to determine the approximate annual cost, daily hours of work and logistics for their crossing guards as they employ several. I was advised that each crossing guard works two (2) hours per day at slightly more than \$16/hour from September to June. They are also provided with personal protective equipment and other equipment to perform their duties such as safety vests, hats, a winter coat, a rain coat, grippers, a stop sign, etc. In addition, they are given annual training and must have First Aid, CPR and a clean criminal reference check.

I was advised that there is a significant challenge finding and retaining qualified, capable, reliable people willing to work limited hours per day in often less than ideal weather conditions.

In addition, there is a requirement to have a backup crossing guard in cases of sickness or other instances where they can't work. For safety reasons, if the Municipality commits to providing a crossing guard then it must do so even when the primary crossing guard is unable to work. In Carleton Place, they have only one spare crossing guard for 5 positions. If necessary, they then use their full time By-law Enforcement Officer, Fire Prevention Officer or Deputy Fire Chief in the event of an absence.

If a reliable backup is not employed then this requirement will fall on Municipal Staff. This may prove challenging as Mississippi Mills does not have other trained staff who would be in a position to leave their jobs before and after school to satisfy this role.

I am aware of the "Walking School Bus" program that is currently being investigated by the Health Unit. The program is in its infancy and just being developed so at this time I am not sure if it will help to address Council's safety concerns with children walking to school.

#### **FINANCIAL IMPACT:**

The approximate cost for a crossing guard's annual salary would be \$9,000 (44 weeks per year x 10 hours per week x \$16+/hour plus statutory benefits and 4% vacation pay). There should not be additional salary costs for a backup (s) as the primary crossing guard would not be paid if they did not work. In addition to this there will be training and personal equipment costs of approximately \$500.

If Council proceeds with a crossing guard then the impact to the 2019 budget will be less as it will not be for a full year. No expenditure is included in the draft 2019 budget at this time.

#### **SUMMARY:**

The purpose of this report is to provide the information that was requested at the budget meeting on January 17, 2019 so that Council can make a determination as to whether a crossing guard should be added to the 2019 budget.

# THE CORPORATION OF THE MUNICIPALITY OF MISSISSIPPI MILLS STAFF REPORT

**DATE:** March 12, 2019 (\*Deferred from March 5, 2019 Council meeting)

**TO:** Committee of the Whole

**FROM:** Rhonda Whitmarsh, Treasurer

**SUBJECT: Gemmill Park Funding Options** 

#### **RECOMMENDATION:**

THAT Council authorize the Treasurer to proceed with Option 2 to obtain long term financing for the unfunded costs associated with Gemmill Park;

AND THAT Council consider Option 3, selling surplus municipal land, to defray the long term debt repayments associated with this project.

#### **BACKGROUND:**

In 2017, work was completed in Gemmill Park that included a splash pad, skate park and washroom facilities. At the time, the work was to be funded from several sources; development charges (skate park and splash pad), reserves, long term financing, the sale of land and grants.

Although the project is finished there are still costs that have not been funded while a decision was being made as to the sale of land. The unfunded amount of \$502,174 is determined as follows:

| Expenditures:                 | \$        |
|-------------------------------|-----------|
| Construction Costs            | 958,649   |
| Professional Fees             | 98,548    |
| Total Expenditures            | 1,057,197 |
|                               |           |
| Less Funding:                 |           |
| Development Charges           | (248,949) |
| Reserves and Deferred Revenue | (72,656)  |
| Grants                        | (233,418) |
| Total Funding                 | (555,023) |
|                               |           |
| Unfunded Balance              | 502,174   |

Note: Change orders on the project total \$89,512 and are included in the above expenditures. Council resolutions indicate that change orders are to be funded first from development charges, then from the sale of land (if possible) and then from long term financing.

#### DISCUSSION:

Now that the intended sale of land to fund this project is not going to occur, a decision needs to be made as to how to pay for the remaining costs. There are no available reserves to fund the outstanding balance therefore the following options are presented for Council's consideration:

**Option 1 - Add the full cost to the 2019 budget.** This option equates to an approximate 5.06% tax levy increase. This option is not recommended.

**Option 2 - Long term finance the project.** The original budget for this work had a long term financing component and it was one of the options for funding change orders. Since this project has a long life it makes sense to spread the payments over the same time frame so that those residents who will benefit from it are the ones paying for it. Assuming an interest rate of 4% for 20 years, the annual repayment costs would be \$36,360 and if the loan is for 10 years the repayments would be 60,747. These debt repayment costs would need to be added to the budget each year. I would recommend the 20 year option as the park facilities should not need replacement before then and it makes the debt payments more affordable to the residents in terms of the taxation impacts.

**Option 3 - Sell some other surplus municipal land to defray the costs.** This option could possibly help fund the outstanding costs of the park however it will take some time to determine which municipal lands could be sold, if any, and then complete the process. While waiting for this process to be completed, interest rates on any required loan may rise resulting in additional costs if there is not enough available land to sell to cover the entire unfunded balance.

I am recommending a combination of Options 2 and 3 - long term financing the unfunded balance as soon as possible to try and obtain the lowest interest rate, and that the municipality work on trying to sell other available municipal lands to offset the debt costs. This is similar to the approach taken with the Business Park. The net proceeds from the sale of lots in the Business Park is put into reserves and then used to fund the debt payments on the Business Park so that the cost is not being funded from the tax base.

#### FINANCIAL IMPACT:

The financial implications of these options are noted above. The recommended option has been included in the draft 2019 budget.

#### SUMMARY:

It is recommended that Council approve a combination of Options 1 and 2, with authorization to proceed with long term financing for the unfunded balance of the Gemmill Park project.

Respectfully submitted,

Rhonda Whitmarsh, Treasurer

# 2019 WATER & SEWER BUDGET

#### Introduction

Water and Sewer is an essential service provided to users connected to the municipal system which is represented by approximately 3,060 water and sewer accounts. The system is managed and maintained by the public works department responsible for providing clean and safe drinking water and the treatment of wastewater for those living and working in the serviced area of Mississippi Mills.

The operating and capital costs to provide this service is recovered fully through water billings issued every two months after applying all other water and sewer related revenues such as Federal and Provincial grants, development charges, interest on overdue accounts, etc. **No funding for water and sewer services is provided through municipal taxation.** 

Council's responsibility is to provide wise stewardship of all assets; human, financial and physical which includes all water and sewer related assets. Financial decisions will be required that meet the needs of the community while still providing quality services. It is Council's responsibility to make the best use of public funds to ensure that the residents are getting the most out of the rates they pay for this service.

Council also needs to ensure that their decisions are in keeping with legislation, municipal bylaws, policies and Federal and Provincial regulations. In addition to the *Municipal Act*, the key legislation applicable to water and sewer is as follows:

- Occupational Health & Safety Act
- Safe Drinking Water Act
- Clean Water Act
- Ontario Water Resources Act
- Wastewater Systems Effluent Regulation (Federal)
- Development Charges Act
- ▶ Employment Standards Act

#### **2019 Budget Assumptions & Challenges**

Municipalities are prevented from having budgets that do not balance per Section 290 (2) (b) of the *Municipal Act*. Unlike Federal and Provincial budgets that can be approved with a deficit, a municipality's annual revenues and expenses must be equal. Expenses and revenues must also be kept separate and not netted against each other. This is an important concept in understanding and following the budget document.

The draft 2019 water and sewer budget being presented is balanced based on the following assumptions:

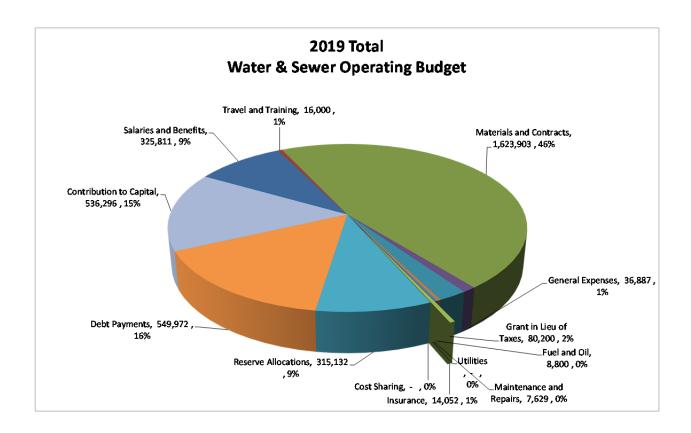

- 1) It is unknown at this time if dividends will be received in 2019 from Mississippi River Power Corporation (MRPC) to further offset the capital program.
- 2) Hydro revenue will be shared with the municipal budget based on By-law 15-128. For 2019 the allocation is 37% water and sewer and 63% municipal.
- 3) The water and sewer rate increase is established at 3% as per the approved Water and Sewer rate study.
- 4) Previously approved internally financed projects will be repaid to reserves plus an additional \$200,000 allocation for future capital replacement needs. The Ottawa St./Honeyborne St. looping project is also being proposed to be internally financed from reserves.
- 5) The work on Victoria St. is to be long term financed. No other long term financing is being recommended with the exception of the detailed design for the Almonte Downtown renewal project which is a carryover from the approved 2018 budget (and shared with the municipal budget).
- 6) Reserve and development charge allocations are as outlined in the capital budget document.

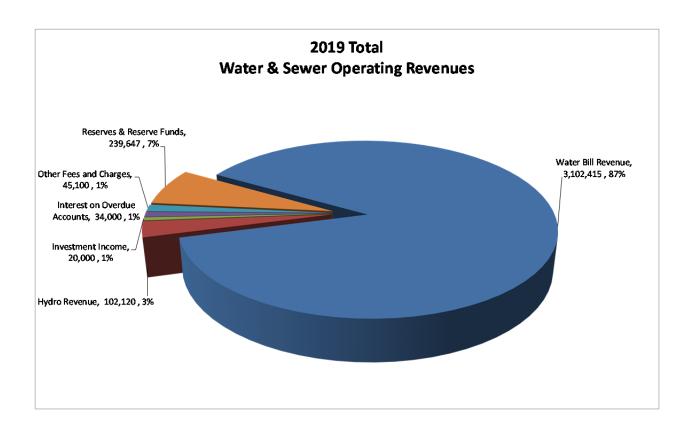

#### **Executive Summary**

The draft 2019 budget is broken down into two parts; operating and capital:

1) The operating budget of \$3,543,282 includes the day to day requirements to manage and operate the water and sewer system for those residents and businesses connected to this service. It includes such items as salaries and benefits, contracts with the Ontario Clean Water Agency (OCWA) and material and supplies, etc. More specifically, the operating costs relate to inspection, cleaning and repairs to the sanitary collection system and the water distribution system.

The operating budget is recovered through revenue sources like water and sewer billings, development charges, hydro revenue sharing, interest on overdue accounts, water meter sales and other miscellaneous revenues.

2) The capital budget for 2019 is \$3,938,500 and includes major maintenance, rehabilitation and replacement of assets needed to provide water and sewer services to residents and businesses. Refer to the detailed capital budget for project information and costs. The amounts shown in the immediate right hand column represent the amounts that need to be paid from W&S rates and general operating revenues after all other capital revenue sources (grants, development charges, reserves, etc.) have been considered. The total of the right hand column are then included in the operating budget under line entitled "Capital Expenditure" (line 26).

CLEANING-FLUSHING OF SEWERS TO MINIMIZE BLOCKAGES AND REMOVE GREASE, MAINTAIN CAPACITY, REDUCE ODOURS, ETC., REMOVE DEBRIS IN MANHOLES AND PROVIDE A CONTINIOUS FLUSHING PROGRAM FOR PROBLEM AREAS

REPAIRS-MINOR STRUCTURAL PROBLEMS, ROOT REMOVAL, GREASE, PREVENTATIVE MAINTENANCE, EMERGENCY REPAIRS

#### WATER DISTRIBUTION

\$231,900.00

**INCLUDES:** 

INSPECTION-FIRE HYDRANTS ARE INSPECTED ANNUALLY PER THE FIRE CODE, HYDRANT FLOW TESTS ARE COMPLETED EVERY TWO YEARS TO DETERMINE THE EFFICIENCY AND ADEQUACY OF THE SYSTEM, LEAK DETECTION LOCATES ARE PERFORMED AT TIME OF HYDRANT INSPECTION, VALVE TURNING PROGRAM COMPLETED ONCE EVERY TWO YEARS

CLEANING-FLUSHING OF WATER MAINS TO REMOVE METAL OXIDES, SEDIMENT AND OTHER PRECIPITATES FROM THE PIPE NETWORK TWICE PER YEAR, CLEAN ISOLATION VALVES WHEN DEBRIS PREVENTS OR IMPEDES PROPER ACCESS TO THE OPERATING NUT WITHIN THE VALVE BOX

REPAIRS-REPLACE HYDRANTS AND VALVES THAT ARE NO LONGER FUNCTIONAL, PREVENTATIVE MAINTENANCE, EMERGENCY REPAIRS TO THE DISTRIBUTION SYSTEM

#### METER INSTALLATION, MAINTENANCE AND REPLACEMENT

\$41.250.00

METERS SHOULD BE REPLACED AS REQUIRED (LIFE IS APPROX. 25 YEARS). OLDER METERS TEND TO BE LESS ACCURATE, NO LEAK DETECTION. METERS SHOULD BE CHECKED EVERY 10 YEARS OR AS REQUIRED WITH THE REPLACEMENT OF OLDER METERS WITH RADIO FREQUENCY METERS WHICH ARE MORE ACCURATE AND PROVIDE LEAK DETECTION AND LESS TIME TO READ BECAUSE DONE REMOTELY.

#### METER READING AND BILLING

\$13.300.00

STAFF TIME TO READ METERS AND COSTS OF MAILING BILLS TO RESIDENTS

#### PUMP HOUSE, LIFT STATION & TREATMENT PLANT

\$1,536,603.00

INCLUDES CONTRACT WITH THE ONTARIO CLEAN WATER AGENCY (OCWA) AND A GRANT IN LIEU OF TAXES FOR THE WASTE WATER TREATMENT PLANT.

THE OCWA CONTRACT INCLUDES:

THE OPERATION OF THE WASTEWATER TREATMENT PLANT INCLUDING LABOUR, CHEMICALS, ENERGY COSTS, SAMPLING OF RAW AND FINAL EFFLUENT, REVIEW OF CHEMICAL ADDITIVES, PROCESS ADJUSTMENTS, RESPONDING TO ALARMS AND COMPLICANCE REPORTING. WEEKLY EXTERNAL LABORATORY SERVICES FOR TESTING AND REPORTING OF PARAMATERS REQUIRED TO BE REPORTED UNDER THE ONTARIO WATER RESOURCES ACT ARE ALSO INCLUDED.

WEEKLY INSPECTIONS FOR MINOR SANITARY PUMP STATIONS AND THREE TIMES PER WEEK FOR THE GEMMILL'S BAY PUMP STATION, REVIEWS OF PUMP OPERATION LOGS, CLEANING OF COURSE BAR SCREENS, FACILITIES, PROCESS ADJUSTMENTS, RESPONDING TO ALARMS AND COMPLIANCE REPORTING.

INSPECTION OF ALL WELL SITES THREE TIMES PER WEEK, SAMPLING OF RAW AND TREATED WATER PARAMATERS, REVIEW OF CHLORINATION PUMP SYSTEMS INCLUDING SUPPLY OF SODIUM HYPOCHLORITE, RESIDUAL CHLORINE AND TURBIDITY ANALYZERS, FACILITIES, PROCESS ADJUSTMENTS, RESPONDING TO ALARMS, AND COMPLIANCE REPORTING INCLUDING LEGISLATED REPORTING.

REVIEW OF WATER STORAGE RECORDS FOR TRENDING AND ANOMOLIES THAT MAY INDICATE SIGNIFICANT LEAKS

WEEKLY EXTERNAL LABORATORY SERVICES FOR TESTING AND REPORTING ALL PARAMATERS REQUIRED TO BE REPORTED UNDER THE SAFE DRINKING WATER ACT.

#### **LONG TERM PLANNING**

The Municipality completed a water and sewer rate study several years ago which provides direction with regards to increases in water and sewer rates each year based on assumptions about growth, consumption and expected operating and capital needs. The study can be found at <a href="https://www.mississippimills.ca/en/townhall/resources/2015-MM-W-S-Rate-Study.pdf">https://www.mississippimills.ca/en/townhall/resources/2015-MM-W-S-Rate-Study.pdf</a>. An update to the rate study is required and is included in the 2019 budget.

The rate study incorporates a number of other documents such as the water and sewer master plan (available from the public works department) and the development charges study (<a href="https://www.mississippimills.ca/en/townhall/developmentcharges.asp">https://www.mississippimills.ca/en/townhall/developmentcharges.asp</a>) and is essentially the long term financial plan for the water and sewer system.

Rate changes for the last number of years have followed the direction of the Water and Sewer Rate Study as follows:

#### **ASSET MANAGEMENT**

In 2017, a new Asset Management Regulation was passed by the Province of Ontario requiring municipalities to complete asset management policies and plans by specified dates. (https://www.ontario.ca/laws/regulation/170588?search=asset+management+regulation)

An approved **Asset Management Plan** provides Council with detailed information on the state of municipal infrastructure so that informed resource allocation decisions can be made. Staff are then able to plan in advance for asset replacement and rehabilitation and communicate this to residents along with annual progress updates as to improvements in this area. The infrastructure replacement needs identified within the asset management plan can then be included in the rate study and the annual budget. **An up to date Asset Management Plan is required in order to obtain any infrastructure grant funding from the Province.** 

The Municipality's current Asset Management Plan can be found at <a href="https://www.mississippimills.ca/en/townhall/resources/Asset-Management-Plan-December-2016.pdf">https://www.mississippimills.ca/en/townhall/resources/Asset-Management-Plan-December-2016.pdf</a>

The Municipality is responsible for the following water and sewer assets:

36.5 km of watermains

34 km of sanitary sewers

1 Wastewater treatment plant

1 Water tower

8 sewage pumping stations

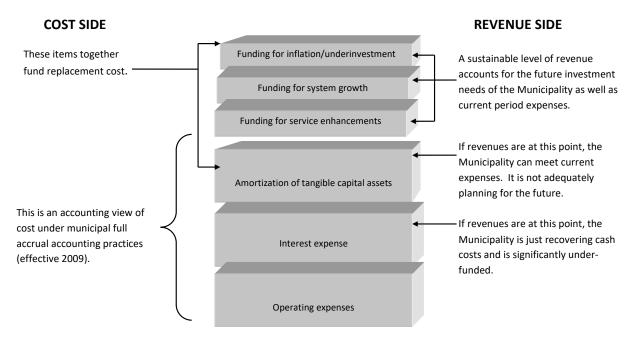

5 wells

SCADA equipment

3 water system vehicles

Catchbasins, storm sewers, manholes, water meters, instrumentation and controls, other equipment

#### SUSTAINABLE ASSET MANAGEMENT

To be sustainable the municipality must ensure that it is spending/investing appropriately on capital improvements and preparing and planning for future capital including growth related needs, technological improvements or changes required as a result of climate change along with all other applicable operating needs for water and sewer.

#### **DEBT AND RESERVES**

When determining how to pay for asset replacement, the municipality considers the following options:

- 1) Out of the current budget (pay as you go). This means that the residents of today pay the full cost
- 2) By a long term financing arrangement (debt). This means that future residents pay the majority of the cost as they are also the ones who benefit from assets with long lives.
- 3) Out of reserves. This means that those residents in the past paid for the asset through a previous allocation to reserves.
- 4) By an internal financing arrangement. This means that funds are taken out of reserves in the current year and repaid over time. Again, this means that future residents pay the cost of the asset but it also protects the reserve from being depleted.
- 5) By other revenue sources such as the fundraising, Federal, Provincial and County grants, development charges, etc.

Which option is chosen depends on the funding source outlined in financial plans and other planning documents, the availability of reserves, grants and other revenues or as approved by Council.

#### **DEBT:**

The Municipality has taken advantage of lower interest rates over the last few years to address the backlog of capital replacement. Debt is considered for assets with expected lives in excess of 10 years with terms not to exceed 20 years.

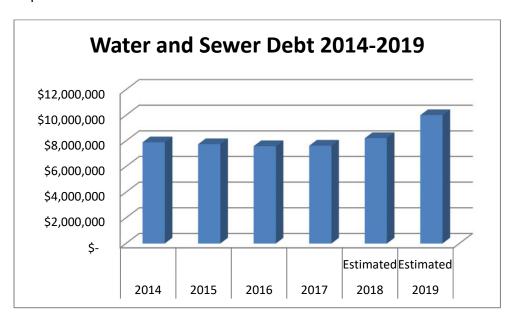

There is an exception for the construction of the wastewater treatment plant. The debt term for this asset is 30 years to try to keep water and sewer rates down while still completing other capital projects. The construction of this asset was over \$27 million with 2/3 funding received from the Federal and Provincial governments. Its construction allowed for growth in the community which was otherwise limited by capacity issues at the lagoons.

Debt allows for the cost of an asset to be repaid over the life of the asset and not paid all at once. It also means that rate implications are smoothed out and prevents large spikes in water and sewer rates in years where major capital replacement is required. Annual debt repayments included in the budget are also considered an investment in capital. Over time, as debt is repaid, the principal and interest payments already included in the budget can be

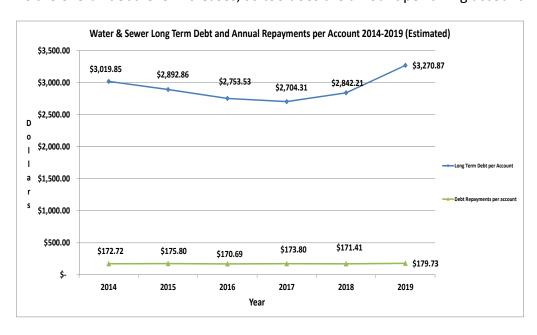

reallocated to replacement needs in that year or be allocated to reserves for future replacement to minimize rate increases.

The only project being recommended from long term financing is for water and sewer on Victoria St. in conjunction with the transportation budget (refer to the transportation capital budget). The financial plan for water recommends financing for capital replacement needs unlike the municipal plan where long term financing is to end after 2018.

Total debt for water and sewer is estimated to be \$10 million at the end of 2019 and is depicted from 2014-2019 follows:

As the overall debt level increases, so too does the amount per billing account:

#### **RESERVES:**

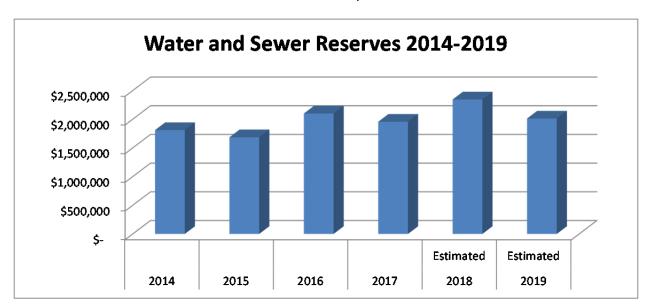

Water and Sewer reserve balances fluctuate annually depending on the availability of funds in the annual budget to build up the reserve and then conversely the use of reserves annually for projects that funds were set aside for.

Reserves are used to plan for future capital replacement needs to try and smooth out rate changes so that large spikes do not occur in years where large capital improvements or replacements are required and/or to avoid long term financing. A common practice of the municipality is to "borrow" funds from reserves to complete a project that is larger in value to avoid external debt financing and as a mechanism to protect the reserve balance in the long term because the amount will be repaid back to reserves over a number of years.

If reserves are depleted in any budget year, then there will be limited funds available in another year to complete required work. This would then equate to a very large increase in water and sewer rates.

Reserves are also needed to address emergency situations that may arise from time to time.

The above chart includes additions to and the use of reserves for internally financed projects that have already been approved and completed as follows:

|                    |                 |            |          |           |            | Prjojected       |

There is also a proposal in the 2019 budget to "borrow' from reserves funds to complete the Ottawa St. and Honeyborne St. looping project. The "repayment" back to reserves would start in 2020 and end in 2029.

With an estimated reserve balance at the end of 2019 at \$2.05 million and a future replacement cost of water and sewer infrastructure conservatively estimated at \$79.5 million, in 2019 the municipality is anticipated to only have **2.6%** of the cost up front. This means that when capital replacement is needed in the future, some other funding source will be required and will likely come from rate increases. It is important that the municipality consider increasing the reserve balance in anticipation of future capital needs.
